### **About/Sobre Raks Madrid**

**“You can only love and respect what you know”**

Arab music and dance are art forms widespread around the world which take on many manifestations and styles, entrancing us from the first chord.

Founded in 2005, the Raks Madrid festival has the aim of furthering our knowledge of these art forms by way of courses and other cultural activities which show us the more structured and rational side of these arts as well as shows and concerts to enthrall us emotionally.

**“Sólo se ama y se respeta lo que se conoce”**

La música y la danza árabe y del Medio Oriente, que es un arte extendido por todo el mundo, se manifiesta a través de múltiples formas y estilos que nos embriagan desde el primer acorde.

Creado en 2005 para rendir homenaje al gran coreógrafo egipcio Mahmoud Reda, el festival Raks Madrid tiene la finalidad de ampliar nuestros conocimientos sobre estos artes por medio de cursos y actividades culturales que nos enseñen su lado más normativo y racional pero también a través de espectáculos y conciertos que nos cautiven emotivamente.
